Notice No 42/August

Date: 31.08.2023

1st September marks the foundation day of our college. We are happy to announce that to commemorate this auspicious day, IQAC of our college has taken a novel initiative; we wish to deliver health insurance for each of our students from this day. Needless to say that the health budget for any middle-class/lower middle class household is a big concern, taking that into account, we hope issuance of student health card for all students would be a big bonus. All bonafide students of our college holding this card would receive health treatment at a very subsidized rate. On this day, IQAC members along with one health insurance official will visit each & every class and elaborate the benefit of this scheme to all our dear students.
